DETAILED ACTION

Allowable Subject Matter

Claims 1,3,5-12 and 14-31 are allowed. Independent claims 1, 5, 9, 14, 17, 21, 22, 25, 29, and 30 disclose the limitation (or a variation thereof) "wherein said schedule is the only point from which all other graphic user interface computer applications operating on said computer are launched". This limitation is not explicitly taught in the previously cited Microsoft Outlook reference, as Outlook is not the "only point" from which applications are launched on a computer system. While the cited Tognazzini reference teaches a viewable surface with a schedule occupying all of the surface, timeslots containing descriptive entries, and dynamic changes to appointment times, Tognazzini fails to explicitly teach a link starting at least one computer application appearing in a time slot, or the schedule comprising the only point from which all other applications are launched. A search by the Examiner failed to produce any prior art containing such limitations. Therefore, independent claims 1, 5, 9, 14, 17, 21, 22, 25, 29, and 30 are allowed.
